

dream home reality

Categorize properties by type (house, villa, apartment), by location, landmarks, or their condition (new or resale).

Embed a search page on your website and let potential tenants or buyers contact the seller directly.

Help people find the best property with filters based on location, type, and seller. You can add your own fields and filters, too.

Maintain a database of property developers and individual house owners, and watch your network grow

Maximum of 10 users

Must invest in higher-level plans for advanced features

Limited integration

MUTHUMARI.V
